

CERTIFIED BEER SERVER PREP TALKS

SESSION #10

Question 1: What ingredient, introduced in the early 1800s, dramatically changed the formulation of Porter?

Question 2: Guinness Draught is a classic example of what stout sub-style?

Question 3: What unique ingredient is commonly used to make sweet stouts?

Question 4: What flavors would you likely find in a Scottish Wee Heavy?

EXERCISE: Taste commercial examples of British or Irish beer styles.

Find a commercial example of one or more of the beer styles covered in this session. For each beer that you get, taste the beer while reading the BJCP guidelines for that style. Do you feel like the beer aligns with the guidelines? Why or why not?
