

CERTIFIED BEER SERVER PREP TALKS

SESSION #11

Question 1: What unique ingredient(s) is/are used to produce American Lagers?

Question 2: Name a commercial example of an International Pale Lager:

Question 3: How is an American Pale Ale (APA) different from an American IPA?

Question 4: How is an American IPA different from a New England IPA?

Question 5: What stout sub-style has the highest alcohol content?

EXERCISE: Taste commercial examples of American beer styles.

Find a commercial example of one or more of the beer styles covered in this session. For each beer that you get, taste the beer while reading the BJCP guidelines for that style. Do you feel like the beer aligns with the guidelines? Why or why not?
